Orange

### Century Orange Pressure Cookers

The Century Orange comes with a unique shape with a bulge at the bottom tapering its way upto the surface. This unique shape gives it a very elegant look and increases the holding capacity of the vessel. It also increases the bottom surface area of the cooker making it better to cook as more of the material gets heated at the same time. Its going to change your cooking experience in the kitchen for sure.

Hard Anodized

### Century Hard Anodized Pressure Cookers

Century also enters the premium range cookers with our new hard anodized cookers. This pressure cooker comes with a curved body for easy stirring of food. Made with fine aluminium it is corrosion resistant as well. With a hard anodized body this cooker absorbs heat faster making it energy efficient. Enjoy healthy food everyday with this hard anodized cooker from Century.

## Aluminium Pressure Cookers

The widely used appreciated Century Classic Pressure Cooker comes with top of the line features. Manufactured from virgin aluminium to ensure zero contamination, this cooker boasts of highest quality of raw materials used. Add to that the elegant design and splendid finish, this cooker is sheer pleasure to cook with.
